HELPFUL DEFINITIONS

Calendar Year – January 1st through December 31st of each year.

Coinsurance – The percent of eligible charges that the plan pays.

Copayment (Copay) – The amount paid by a covered person to a network provider at the time services are rendered. Copayments for covered services are not applied to your deductible.

Deductible – The amount you pay each calendar year before the plan begins to pay for certain covered health care expenses.

Guarantee Issue – The amount of coverage pre-approved by the Life Insurance Company regardless of health status.

Medical Emergency – A sudden, serious, unexpected and acute onset of an illness or injury where a delay in treatment would cause irreversible deterioration resulting in a threat to the patient's life or body part.

Network Benefits – The benefits applicable for the covered services of a network provider.

Non-Network Benefits – The benefits applicable for the covered services of a non-network provider.

Open Enrollment – The period during which existing employees and their dependents are given the opportunity to enroll in or change their current elections.

Out-of-Pocket Maximum – The most a covered person can pay in coinsurance in a calendar year for covered health care expenses (excluding reductions for provider contracts and usual and customary guidelines and co-pays).

Plan Year – Medical runs May 1 through April 30. Non-medical runs October 1st through September 30th.

Preferred Provider Organization (PPO) – A network of health care providers contracted to provide medical services to covered employees and dependents at negotiated rates. You may seek care from either a network or non-network provider, but network care is covered at a higher benefit level and the employee is responsible for a greater portion of the cost when using a non-network provider.

Usual and Customary Rates – Non-network health plan expenses are considered for reimbursement at usual and customary (U&C) rates. U&C rates are determined to be the prevailing charge made for a service by a similar provider in the same geographic area. Charges above U&C are not covered by the plan and are the responsibility of the participant.

Supplemental Health Insurance

Brella

Employees who enroll in one of the company's medical plans are also eligible to enroll in a Brella supplemental health insurance plan. Brella plans pay covered members a lump sum if you are diagnosed with any of 13,000 covered conditions. Brella pays cash benefits to help with health care expenses not covered by your major medical insurance, or anything else you need on your road to recovery.

How does Brella Work?

Injuries and illnesses come in different shapes and sizes. Some conditions are less serious than others, while some are dangerous or life-threatening. That's why Brella was designed as a single plan with three benefit categories that cover a broad spectrum. Covered conditions fall into one of these categories. Each one has a set payout, and all three categories are included in your plan.

MODERATE Condition Benefit	SEVERE Condition Benefit	CATASTROPHIC Condition Benefit
Injuries or illnesses that likely require short visit to the ER or urgent care	Serious conditions that require more intensive medical treatment and attention.	Life-threatening conditions that require immediate medical intervention
Examples: simple fractures, lacerations, dehydration, and kidney stones	Examples: compound fractures, appendicitis, pulmonary embolism, and torn ACL	Examples: malignant lung cancer, heart attack, stroke, and major organ failure

Coverage Options

You may choose one of the pre-configured plans listed below – Value, Enhanced, or Premier. If you or an insured dependent is diagnosed with a covered condition, the payout will equal the amount you elected for the benefit category in which the covered condition falls. For example, if you select the Enhanced Plan, and you have a torn ACL (Severe Condition), Brella will pay a \$1,000 benefit that you can spend on out-of-pocket medical costs, pharmacy co-pays, or any costs you need to pay.

BENEFIT CATEGORIES	VALUE PLAN	ENHANCED PLAN	PREMIER PLAN
Moderate Conditions	\$200	\$300	\$500
Severe Conditions	\$500	\$1,000	\$2,000
Catastrophic Conditions	\$1,000	\$2,000	\$5,000

Enrollment is guaranteed. You do not need to answer any medical questions. If you enroll in the plan at your first opportunity – as a new hire or during the 2022 open enrollment – benefits will be available as soon as coverage begins. If you elect coverage any time after your initial opportunity to enroll, there will be a 60-day waiting period and no benefits are payable during the 60-day waiting period.

THIS IS A LIMITED BENEFIT POLICY. This coverage is a supplement to health insurance. It is not a substitute for essential health benefits coverage as defined in federal law. You must be enrolled in one of the BAS medical plans to be eligible to enroll in a Brella plan.

Maximum Allowable Coverage Plan (MAC) vs. Usual & Customary Plan (U&C)

The MAC Plan is great if your dental providers are in-network with MetLife. Under the MAC Plan, preventive **and** basic services will be covered at 100% while other, more extensive services with in-network providers would be covered at 60%. If you choose to go to an out-of-network provider, however, the MAC plan only pays 60% of the rate allowed by MetLife's fee schedule. If your provider charges more than that fee, you will be responsible for 40% of the MetLife rate PLUS the difference between the MetLife rate and the rate your provider charges.

In contrast, the U&C Plan is a better deal if your favored provider is out-of-network. Under the U&C Plan, preventative services are still covered at 100%, but basic services are covered at 80% and other, more extensive services are covered at 50%. When it comes to out-of-network providers, however, those reduced percentages are based on the usual and customer fees for the area – **not** MetLife's rate.

For example, say you needed to have a tooth extracted, which is covered under the MAC Plan at 60% and under the U&C Plan at 50%, and that the MetLife negotiated rate for a tooth extraction is \$1000. If your dental provider is in the MetLife network, your cost under each plan would be \$400 under the MAC Plan and \$500 under the U&C Plan.

But let's say that your dental provider is not in the MetLife network, and that his fee for a tooth extraction matches the usual and customary rate for your area at \$1500. In this scenario, your cost under the MAC Plan would be 40% of the \$1000 MetLife rate PLUS the \$500 difference between the MetLife rate and your provider's rate – bringing your total cost to \$900. Under the U&C Plan, your cost would simply be 50% of the provider's rate – \$750.

The differences can be summarized as follows:

	MAC Plan	U&C Plan
In-network	Benefits are based on a negotiated fee schedule. No additional fees to the dentist	
Out-of-network	<ul style="list-style-type: none"> Benefits are based on the MetLife network fee schedule Any amount that is charged over the network fee schedule is the responsibility of the patient 	<ul style="list-style-type: none"> Benefits are based on usual and customary charges that dentists in your area charge for each procedure
